CLUB 4CV SUÈDE

Short information in English

The club was founded in 1970 as the first Swedish Renault club. In fact, we are one of the oldest clubs for one single-car-model in Sweden!

We welcome everyone who likes this charming little French car – the Renault 4CV! Regardless of "strictly original" cars or "heavily modified" ones we welcome owners of Renault 4cv and its derivatives. That includes for example the Alpine A 106, Autobleu and Brissonneau.

Our ambition is to encourage the owners to use their cars, help those who restore their 4cv with supplying spare parts and technical advices and, most important, we encourage to maintain a good, helpful and positive spirit between our members!

We offer you as a member:

- *technical advice, parts from our stock of spare parts and assist in ordering parts from our collaborate company Renparts in the Netherlands.
- *Four issues of our club magazine "Småfranskan" and our info sheet "Bulletinen" where you can find buy/sell and latest news.
- *Annual meetings

For joining our club, you either have a 4CV, or an interest for the model. Our members live in Sweden, Norway, Denmark, Finland, France and USA
